INDONESIA'S LEADING

LABORATORY & SCIENTIFIC ANALYTICAL TECHNOLOGY EXHIBITION

- Hosting **220 exhibitors** and **9.324 visitors** scientific and laboratory industry elites at a resourceful platform.
- Providing strategic avenue for companies around the world for technologies showcasing and business meeting.
- Bridging connections between exhibitors and local science & laboratory decision makers, as well as industry professionals.
- Offering platform to gain market insights and to obtain knowledge on the latest technologies through interaction with industry peers.

EXHIBITORS' Profile

Manufacturers, Exporters, Sole Distributors, Agents, Suppliers for instruments and equipment of the following:

- Analytical Systems
- Agriculture And Food
- Biotechnology And Life Science
- Calibration Systems
- Drug Discovery
- Environmental Sciences Testing
- Forensic And Security Testing
- Laboratory Consumables
- Laboratory Testing
- Laboratory Data Systems And Documentation
- Material Testing And Characterization
- Nanotechnology Testing
- Optical Imaging Systems And Microscopes
- Petrochemical And Petroleum Testing
- Pharmaceutical Testing
- Quality Assurance And Quality Control
- Research And Development
- Scientific Equipment
- Test & Measurement

VISITORS' Profile

Scientists, Lab Managers, Lecturers, Research Officers, Quality Control / Assurance Managers, Analysts, Chemists, Biochemists, Microbiologists, Managing Directors, Procurement Managers, from the following industries:

- Advanced Materials
- Agriculture And Fisheries
- Biotechnology And Life Science
- Chemicals Processing
- Education And Training
- Electronics And Electrical Engineering
- Environmental Sciences And Protection
- Food And Beverage Processing
- Materials Testing & Inspection
- Oils And Fats And Oleochemicals
- Pharmaceutical And Healthcare
- Petroleum And Petrochemicals
- Pollution Control
- Research Laboratories
- Rubber And Plastic Processing
- Water And Waste Water Management
- Universities And Government Agencies

Event Highlights

- **Official Opening Ceremony** to witness the remarkable moment.
- **Industry Conferences** in collaboration with government bodies & renowned associations.
- **Technical Seminars & Workshops** to introduce brands and companies to the target buyers.
- **One2One Business Meetings** to connect with local buyers & distributors effectively.
- **University & Educational Tour** in Lab Indonesia where exhibitors meet the future talents and academicians.

Marketing Opportunity

Enjoy additional benefits provided by the Organiser that help to enhance your corporate's image and to maximize your visibility.

- **Advertising Opportunities** in Website, e-newsletter, Show Preview, Show Directory and all advertising channels.
- **Sponsorship Opportunities** to maximize visibility to at all time to the industry players.
- **Show Preview Product Highlights** to excite potential buyers with your interesting products.
- **Roadshows** to meet buyers in Jakarta and beyond.
- **Seminar and Workshop Sessions** to interact with the target buyers in a close up setting.
- **Special Invitation** to be sent to the guests, on behalf of exhibitors.

Exhibitors' Testimonial

We are the biggest producer for laboratory glassware in the world. We have distributors around the world. This is our first time here in Indonesia to look for local distributors. We produce apparatuses, tubes and glassware that are sold mainly in Europe, and we would like to maximize our brand existence in Indonesia. Indonesia is very potential country for laboratory products. There are many v good and potential distributors here in Lab Indonesia. I would like to participate in 2018 because the market is growing and I am very satisfied with the exhibition.

Zdeněk Hruška | Head of Sales Department, Kavalierglass, a.s., Czech Republic

This is our first time in Lab Indonesia. We are excited to be here. The market is growing and there is huge potential here in Indonesia. The show is great and we had a lot of attention. I think we have a lot potential to grow. The reason we invest in Lab Indonesia is because we see the big potential in the market and we think we will grow. We hope to get our products in front of the customers and hope to get distributors and investors to grow the market for us. We will be in Lab Indonesia 2018 for sure.

Jim Romenesko | Director of Whirl-Pak® Sales, USA

It's my pleasure to be here in Lab Indonesia. We are happy to present our latest development of spectrometers, inductive magnetic stirrers and liquid handling products to the audience and visitors. Lab Indonesia is a very good exhibition to show latest development. The visitors are interested to see new products and the latest technologies that we developed. We had presentation in the seminar session here and the audience is interested to know more. We hope to further develop our contact to Indonesia users, dealers and partners to support our products and help us to locate in Indonesia. Definitely, we have plan to join the next edition to display our products in the pipeline.

Klaus Englert | Managing Director from EMCLAB Instruments, Germany

Metrohm Indonesia specializes in Indonesia region and we sell to all industries including pharmaceutical, oil and gas, food and beverage, general manufacturing, chemical, all industries with manufacturing processes and for those that need to maintain quality products as well as company research. I think Lab Indonesia this year the size of the exhibition hall two times larger than previous edition. So far the results are pretty good. Our principal is satisfied with the response too so I was quite looking forward to come again.

Tenggara Kardinal | Director of Metrohm Indonesia
