PRODUCT HIGHLIGHTS INDONESIA

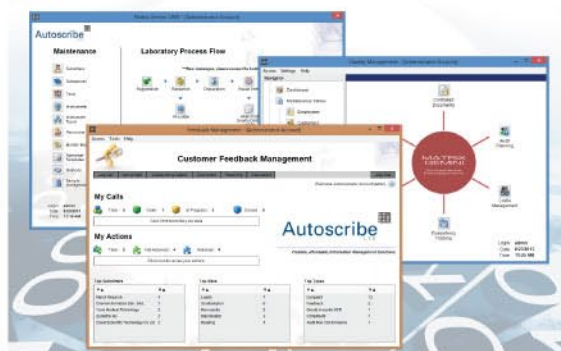

AbadiNusa
AbadiNusa Usahasemesta

PT. Abadinusa Usahasemesta is the one of sole agent laboratory equipment in Indonesia. Our commitment to serve high quality equipment with the best after sales service. Our principal are Heidolph-Germany, Gerhardt-Germany, Perten-Sweden, Hanson-USA, Nuve-Turkey, Camag-Switzerland, PrinCE-Netherlands, LCtech-Germany, Labhut-UK, and Charles Ischi-Switzerland.

agriya analitika

Autoscribe
LTD

PT. Agriya Analitika is a young and dynamic company focus on laboratory management. Driven by strong professionals, PT. Agriya Analitika as sole distributor for Autoscribe Ltd – UK provides Matrix Gemini as the latest advance LIMS developed using Microsoft .NET framework and completed with configuration flexibility with no programming knowledge required.

Our Vision as a leader in laboratory equipment supply, calibration services and training & consulting with the best product and quality services.

Our Mission

- Forward the best products, quality services & supports
- Committed for honesty and the best attitude and integrity
- Customer satisfaction priority by providing fast services, precision & accuracy

PT. ASKOTAMA Inti Nusantara was established since 2005.
The company is engaged in the supply of laboratory
equipment for Private & Government companies, Research and Universities.
With a reliable technician owned, this company also
offers repair and maintenance services contract for equipment
AAS, GC, Spectrophotometer and other laboratory equipments.

PRODUCT HIGHLIGHTS INDONESIA

BIONEER
Innovation - Value - Discovery

ExiStation™

Automated Quantitative PCR Molecular Diagnostic System

PT. Bioneer Indonesia is a leading company in providing molecular research reagent and instrument also molecular diagnostic reagent and instrument for many applications. Our company represent and distributes all of Bioneer Corporation (South Korea) products including automatic nucleic acid extractor (ExiPrep™ 16 Dx), thermal cycler (MyGenie™ 32 and MyGenie™ 96/384) and Real Time qPCR instrument (Exicycler™ 96).

BUCHI

BUCHI Laboratory Equipment
Innovative Products and Solutions

BUCHI is a world-wide supplier in key technologies such as evaporation and separation for R&D laboratories as well as NIR, Kjeldahl and extraction for control purposes. BUCHI creates solutions that not only fulfill the specific requirements of one single step, but which take the whole process into account – solutions that enhance quality and increase the productivity of the laboratory process.

PT. Berkart Jaya Abadi was established in 2001 in Surabaya with the aim to contribute to the modernization process, especially in scientific technology. We also provide equipment in the field of Biomolecular, Materials Chemistry, Surface Aerator and Laboratory Equipment. We are the place that you're looking for the best.

PRODUCT HIGHLIGHTS INDONESIA

PT. DIGITAL AKURASI

JAKARTA - BANDUNG - SEMARANG - SURABAYA - BALI - LAMPUNG - PALEMBANG - JAMBI - MEDAN - MAKASSAR - MANADO - BANJARMASIN - BALIKPAPAN

PT. DIGITAL AKURASI established in 1990 is a trading company has 23 branch offices throughout Indonesia such as Sumatera, Java, Bali, Kalimantan and Sulawesi. We have marketing, sales, technical & customer service division. Our products are made in USA, Germany, UK, France, Spain, Italy, Japan, Korea and Taiwan.

PT. DIPA PUSPA LABSAINS

PT Dipa was established in 1975. Over 30 years, we have focused on Microbiology, Chemical & Environmental sectors. Our major activities cover Sales, Marketing, Distribution and Importation.

In Microbiology, our principals are ThermoFisher and Lonza with major focus on culture media, endotoxin test etc used in hospital, pharmaceutical, F&B manufacturers.

In Chemical, our principals are JT Baker, Macron Chemical & Tokyo Chemical Industry Co., LTD with major focus on solvents, acids, salts etc.

In Environmental sector we have Tintometer, who is well know in all aspects of water analysis system.

PT. ELO KARSA UTAMA

PT. Elo Karsa Utama is one of a leading distributor of biotechnology, microbiology and life science products in Indonesia. We serves the needs of customers in Research Centres, Hospital & Laboratorium, Universities, Vaccine Manufacturers, Blood Bank and Industries (Food & Beverages, Pharmaceutical, Poultry). Our ultimate objective is customer satisfaction by providing high quality & innovative products and dependable service.

PT. Era Mitra Perdana

PT. Era Mitra Perdana is a Scientific, Laboratory Equipment and Service company. Was established in Jakarta in 1999, agents of Cilas, Quantachrome, Linseis, JP, Selecta, Labtech, Labnet, Ocean optics, Meiji techno, Milwaukee, Kruss, Kern, Biotron, Reaction engineering.

Provide best service, open communication and pro-active to give suggest and alternate solution for customer. We was supported by qualified personal, high quality product and optimum after sales service.

PT. Genecraft Labs is leading life science &

biotechnology instruments and reagents supplier in Indonesia. We provide a complete range of life science products and services to the life science research, applied testing, human identity & forensics, food safety testing, biomedical and healthcare sectors especially molecular diagnostic sector.

PT. GLOBAL SATRIA AJI (GSA) is an authorized dealer from Merck Chemical which provides chemical ingredients for laboratory analysis, raw materials production, food & water analysis, microbiology, chromatography and hygiene monitoring.

In general, our line of business is the chemical laboratory reagent & laboratory consumables such as glassware, plastic ware, filter paper, and equipment.

Our commitment is to support customer needs with high quality product and best quality services.

PRODUCT HIGHLIGHTS INDONESIA

PT. Global Scientific International is a company focus on selling and maintaining laboratory equipments. Our company appointed to represent and distributing laboratory instruments such as osmometers from Advanced Instruments (USA), refractometers & polarimeters from Bellingham and Stanley (UK), pH meter and titrator from SI Analytics (Germany), meters and loggers from Ebro (Germany), Auto Platter and Colony Counter from Spiral Biotech (USA).

PT. Haes Brothers have been serving various industries for their analytical needs for over 30 years. We have established exclusive partnership with leading company manufacturer like FOSS, MetrohmNIRSystem, ThermoFisher, NDC Infrared Engineering, CHARM Sciences and Food Technology to ensure our customers get the best technology, performance and reliability. With offices in Jakarta and Surabaya to handle both Sales and Services we are committed to provide reliable service to our customers.

Fume hood is enclosed work area to limit exposure to hazardous or toxic fumes, vapors or dusts. Laboratory bench is working bench with chemical resistance top table and held heavy weight instruments. We also provide chemical storage, emergency shower, point extractor, laboratory fittings, etc.

HANNA Instruments® opened its office in Indonesia in 1995, and has been providing quality service and innovations to her residents ever since. HANNA has developed over 3000 high quality products, from pH meters to automated titration systems, and continues to be a world leading manufacturer of analytical instrumentation.

www.hannainst.com

With Great Products, Come Great Results™

PT. Hartech Indonesia is an exclusive distributor for some of the most trusted names and Quality products in the industry, such as MerckMillipore, Cape Cod, New Brunswick Scientific, Clyde Apac, Hach, Wheaton, Texwipe and Contherm. The Company serves the life science research, biotechnology, pharmaceutical, F&B, chemical, electronic Industries.

PT. HASE UTAMA INDONESIA

Our company focuses on Laboratory instruments for industries like petroleum, petrochemical, biofuels, environmental, food and beverage, pharmaceutical, and more. We offer services like pre-sales consultation, technical support from installation through maintenance and repair, application support and laboratory turnkey packages.

With years of experience, a dedicated sales team and an unfailing service promise, has made us the leading distributor of laboratory instrument in Indonesia.

PRODUCT HIGHLIGHTS INDONESIA

PT. INDOFA UTAMA MULTI CORE

INDOFA UTAMA MULTI CORE, PT. We are Importing, Agency and Distributing various products listed below:

- General Laboratory and Scientific Equipment.
- Laboratory Chemicals. Laboratory Glassware and Plastic ware.

We have a branch office in Jakarta and a representative office in Semarang. We always keep our commitment to offer the best quality products and our best after sales service capability. Customer satisfaction is our priority attention.

PT.INDOSCIENCE LEADS, established in 2009 by a group of scientist who completely dedicated themselves to development of research. With all the experiences & skills, PT INDOSCIENCE LEADS's aim was to become one of the major supplier in Medical, Industry, and Life Science researches. Our Analytical and Life Science Division will be pleased to give you any information and quotes regarding your needs, for these following product brands :

- Real-time Microorganisms Detection
- Particle Counter
- Real-time Particle Monitoring System

- Multi-Function Ventilation Meter
- Air Balancing Instrument

- Integrity Filter Testing Equipment (Photometer & Generator)

- Mopping Products & Buckets
- Wipes
- Disinfectants
- Swabs

Infiltaco Instruments specializes in ventilation instruments and also cleaning products for cleanroom.

Proudly serving customers nationwide, key products we supply include particle counter for counting particles in cleanroom, multi-function ventilation meter for measuring airflow, humidity, temperature, CO, CO₂, VOC, and etc., integrity filter testing equipment, wipes, mops and disinfectants for critical environments, and many more.

INTERLAB SENTRA SOLUTIONS INDONESIA PT

SOLE AGENT FOR :

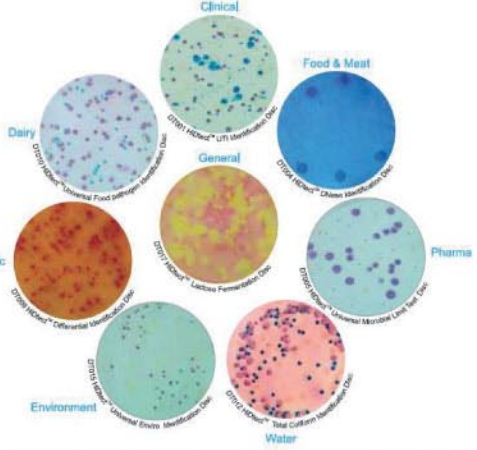

PT. Interlab Sentra Solutions Indonesia (ISSI) is a sole agent and exclusive distributor for some of the most trusted names and quality products in the laboratory instruments industries, such as Normalab, Eralytics, PSL Rheotek, Pilodist, Conostan of SCP Science, TE Instruments, Linetronic, Eurovector, OI Analytical, and Zematra.

The Company serves the Oil & Gas Industries, Petroleum, LPG Plant, Power Plant, Petrochemical, Biodiesel and Water Solutions.

PT. Intralab Ekatama is a distributor of Life Science research product in Indonesia. We currently represent : Corning - Axygen (Life science plasticwares), Himedia (microbiology medium), Applichem (biochemicals), Phytotechnology (plant tissue culture medium), Vivantis (molecular biology chemicals) and JR Scientific (cell culture medium & biochemicals).

CV. INTRALAB TRADING MANDIRI
A General Laboratory Instrument Supplier, Engineering, and Manufacturing, founded on August 2008 in Bandung, West Java, Indonesia. Our focus is to participate in the development of education in Indonesia, especially the university grade.

In 1997, ITS Group established ITS Indonesia with an aim to make science & technology readily available to local communities seeking a better quality of life through R & D. Representing leading manufacturers from US, Europe and Asia, ITS Indonesia offers customers a comprehensive range of high-end analytical instruments, general laboratory equipment, consumables, reagents, chemicals and supplies used in scientific research, education, healthcare and industry workflow processes. Our customers come from within pharmaceutical and biotech companies, hospitals and laboratories, universities, research institutions and government agencies, as well as environmental and industrial quality & process control settings.

PT. Karunia Jasindo established in 2002 as an importer and distributor of laboratory reagents, instruments, supplies, and service & repair. We are authorized agents for Tedia, Kanto, ChemService, Labscan, SPEX, Accu Standard, CDN Isotope, Advantec, Yamato, Taitec, Contherm, Hirschmann, and As One.

Our company puts special emphasis on providing customers with wide choices of laboratory items, quick and thorough service, and maintains a highly developed distribution network across the country. Our products are also known to various industries and manufacturers worldwide.

CV. KARYA GRAHA AGUNG
Supplier of Chemicals, Laboratory Equipment & Glassware

CV. KARYA GRAHA AGUNG, Supplier of LABORATORY EQUIPMENT, GLASSWARE and CHEMICALS. We are an authorized dealer of the products:

1. SAMCO - England : Glass Jar, Test Tubes, Flat bottom, Specimen Tubes, Glass vials, Plasticware, Stirrers bar, Dissecting equipment, General apparatus.
2. BURKLE : Filling Machine, Sampling
3. MILWAUKEE : Instruments for Water Analysis
4. CONTROL COMPANY : Digital, Traceable and Unique Products
5. A & E LAB : Atomic Absorption Spectrometer, Spectrophotometer, Flame Photometer, Digital Whiteness Meter, Portable Turbiditymeter, Automatic polarimeter.

PT Kinglab Indonesia was established on January 2006 to meet needs of the industrial and government in Indonesia, especially for laboratory equipments and rapid test kits which reliable, accurate, and well know. We offer and supply wide range of technology and instruments related to quality control, routine testing, and research development applications for many more industry sectors such as fishery, dairy, pharmaceutical, food and beverages, agricultures, environmental, etc.

Our Company, PT. KURNIAJAYA MUKTISENTOSA is one of the biggest Laboratory Equipments Sole Agent / Distributors in Indonesia. We have been well known by most of those who deal with Food & Beverage, Pharmaceutical, Chemical, Fertilizer, Ceramic, Automotive Industries, Hospital and education Institutions such as Junior & Senior High School and Universities, Indonesia Sciences Institution (IPI), Research and Development Board of The Ministry of Health (LITBANG - DEPKES), Ministry of Education & Culture, Agriculture, Forestry and others. And with more 34 years experience in our field, we believed that we can provide the appropriate products for your laboratory requirement.

Your partner in High End Instrumentation

PT. Lab Sistematika Indonesia - Q28

PT. Lab Sistematika Indonesia (LSI) is a leading company in providing high end technology analytical instruments for many applications in Indonesia.

PRODUCT HIGHLIGHTS INDONESIA

We are distributor of leader brands for life science and analytical laboratory instruments and reagents. We sell product of Whatman (GE Lifescience), Applied Biosystems (Life Technologies), Ion Torrent (Life Technologies), SCIEX, Pall water purifier, Celsis, Hygiena, MPW, Vilber Lourmat, Sigma, Biologix, Delta Instrument. With our long experience and expertise, we will always serve you better.

PT. Libra Emas Permata, Sole agent of A&D Weighing Products and ACIS Scales, Provider of Micro Balance, Precision balance, Viscometer, Moisture Balance, Pocket scales and other weighing solution for laboratory.

PT. Maja Bintang Indonesia
Authorized Distributor GBC Scientific

PT. Maja Bintang Indonesia as the business entities in Indonesia is engaged in the marketing/trade of laboratory equipment that already has trading license and an import permit from Directorate General of Taxes, Ministry of Trade and Directorate General of Customs such as Atomic Absorption Spectroscopy (AAS), UV Spectrophotometer, XRD, Microwave Digestion, Pyrolyzer, SPE Sample Preparation and Consumable for GC and HPLC.

PT Merck Tbk
Chemicals – Merck Millipore Division

At Merck Millipore, we share your goals. For nearly 350 years, our people have been trusted partners to all the risk-takers at working bio / pharmaceutical companies, at food and beverage industries, research institutions, laboratories, mining and at technical industries around the world. No other Life Sciences companies offer the depth and breadth of product and service solutions for every stage of the journey – from basic research and discovery to product and process development to production and control.

Tomy Autoclave

As a full Line Distributor of laboratory Equipment since 1990, PROLABMAS can supply a full line of laboratory equipment and supplies. Our customers ranging from Research, Industrial Laboratories, Universities, Pharmaceutical Laboratories as well as Government Research and Health Institution. We are committed to providing the highest quality products and service with competitive price but with very professional service and providing the full customers satisfaction.

PRODUCT HIGHLIGHTS INDONESIA

PT. VANADIA UTAMA is Exclusive Distributor for Carl Zeiss (Optical Microscope and Electron Microscope), Bruker (EDS, EBSD, Gas Chromatography, GC-MS, GC-MS/MS, LC-MS/MS), MetaSystem (Karyotyping Systems), ADInstruments (Data Acquisition and Analysis for Life Science Education and Research), SLEE (Histology Equipment), Buehler (Materials Preparation Equipment), Wilson (Hardness Tester).

We supply and service world leading Analytical Instruments for Food, Pharmaceutical, Cosmetic, Adhesives, University, R&D etc :
Automatic Polarimeter, Saccharimeter, Refractometers, DensityMeter, Texture Analyser, Powder Flow Analyser, dough Inflation, Volscan Profiler (Volume Measurement of Bread & Fruits), aw-meter, RH Meter/Transmitter, Diff. Pressure for Clean Room, UHT(Ultra High Temperature), Risen Film Evaporator, Spray Dryer, Colormeter etc.

ROBUST has the reputation of building high quality Solid wooden & steel laboratory furniture and fume cupboards. Designed and manufactured in INDONESIA, ROBUST products are safe efficient and attractive. All elements of the large range are modular, designed for easy expansion and also interchangeable. Unsurpassed for economic design, a ROBUST System labor makes for safety and a flexible working environment.

We offer extensive lab planning services to help you maximize available space and provide safe, effective and attractive environments. From the beginning of each project through completion, our experienced staff will work with you to ensure we deliver exactly what you need, and to provide the best lab furnishings possible for any budget.

PT. Saintifik Indonesia distribute laboratory and scientific products; provide procurement and engineering solutions for industries and those who enquire analysis products. We are the sole agent for ISOLAB Laborgeräte GmbH. All the ISOLAB products have the highest international quality standards, used for the daily work in university and government institutions, medical and research labs as well as the industries.

PT. Satya Abadi Visimed is a marketer of high quality products of Medical Equipment, Laboratory Preparation & Instrumentation.

Our team is highly experienced and here are a few of our Business Partners: Biotoool Swiss (Automated dish filling & inovative laboratory technology), Lab M, UK (Microbiological Culture Media), Giles Scientific, USA (Automated Identification, susceptibility and counting organism), Delta Biotech Incorporate, Canada (Biological Indicator & Chemical Indicator)

PRODUCT HIGHLIGHTS INDONESIA

SAKA has served the laboratory industry for over 45 years. We are privileged to be the National Distributor of: Hach, Memmert, Kern, Velp, Optika, GFL, Nabertherm, Orbisphere and many more.

TSP PT. TRANSINDOTAMA SINAR PERKASA

~ Laboratory Equipment ~

Since established on 21st September 1989, we, PT. Transindotama Sinar Perkasa, are well known as a company, which sells laboratory equipments.

We are also well known as the representative of many laboratory products brands for Indonesian area with more concern to technology and innovations development of the sale products.

Our Vision is to be the strongest company in laboratory analysis business in Indonesia.

We also provide maintaining and repairing services.

PT TRI DAYA PRIMA provides sales, training, and after sales service for laboratory equipments including Analytical and Physical Instruments. Since the start of our business operations in 2003, we have enjoyed dramatic business growth. We have expanded our market share to all provinces of Indonesia. We are very excited to take advantage of this trend. We can effectively leverage our present customers and our strength in new customer acquisition into the business. We are committed to serve Indonesia market with excellence service.

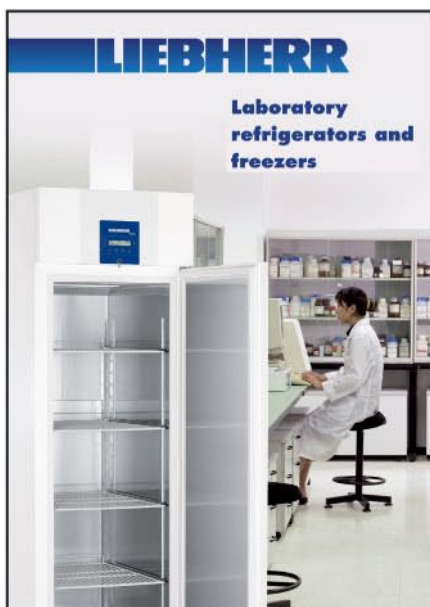

We are exclusive and authorized Distributor for General Laboratory and Analytical Equipment:
YL INSTRUMENT
IKA

DRAGON-LAB
JULABO

- : HPLC, GC, AAS, Water Purification System
- : Hotplate Stirrers, Mixers, Shakers, Vortex, Homogenizers, Grinder/Mills, Rotary Evaporator, Pilot Plant
- : Single/Multichannel Pipette, Rotator, PCR Centrifuge,
- : Water Bath, Shaking Water Bath, Heating Circulator, Visco-Bath, Refrigerated/Heating Circulators, Chiller, Calibration Bath, Immersion Cooler
- : Balances, Furnaces, GELDOC, Ultrasonic-Cleaner

PT. Wahana Satria Abadi is the sole distributor of Liebherr commercial appliances in Indonesia. Liebherr is a German company which has many years of experience in producing household and commercial appliances including laboratory freezer and refrigerator. Liebherr high quality workmanships fulfill the highest professional standards.

PT. Winiharto as the distributor of Sartorius products in Indonesia introduce our Sartorius product lineup. The Sartorius Secura, specially designed laboratory balance for use in regulated area. The Sartorius Arium, a modular and high quality water purification system. The award winning Picus, a highly ergonomics, precise and accurate electronic pipette.

PRODUCT HIGHLIGHTS INDONESIA

Yuki Water Treatment has helped improve water sanitation for countless home and business owners. Using only filter parts and media from reputable US, Canadian and European companies, offers highest level product warranty, reliability, durability and satisfaction. To make sure customers obtain the best water solution also provide free water test, customized water treatment designing, assembling and installation.

As a manufacturer of medical device, laboratory equipment and home care product since 1989, Heal Force has dedicated to providing high-end life science equipment. Our products have been serving customers all over the world ranging from research, university, institute, hospital, government institution, etc.. We have over 1000 employees and 8 manufacturer bases with which we can provide quick feedback and professional after-sales services.

ISO 9001 SGS CE
Huanghua Faithful Instrument Co., Ltd

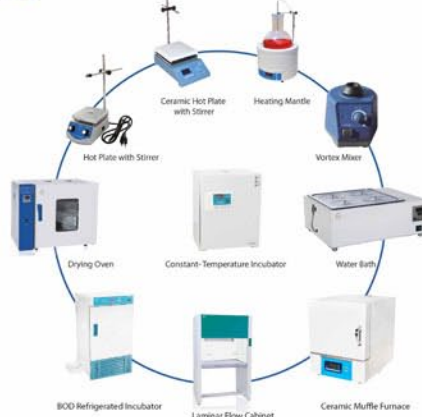

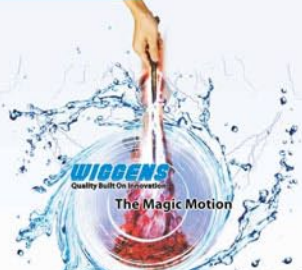

Diagram showing various laboratory equipment: Ceramic Hot Plate with Stirrer, Heating Mantle, Vortex Mixer, Water Bath, Constant-Temperature Incubator, Drying Oven, BOD Refrigerated Incubator, Laminar Flow Cabinet, Ceramic Muffle Furnace.

Huanghua Faithful Instrument Co., Ltd is a Professional Laboratory Apparatus Manufacturer with the ISO9001 and CE Certificate. The products include Drying Oven, Incubator, Ceramic Muffle Furnace, Heating Mantle, Magnetic Stirrer, Hot Plate, Water Bath, Water Distiller, Laminar Flow Cabinet, Disintegrator, Water Distiller and etc. We can offer the OEM service and design the products as customer inquiry.

METASH provides a full range of spectrophotometers including VIS/UV VIS, single/ double beam Spectrophotometers. With high quality and good service, our products are widely used in Environmental, Food, Cosmetics, Pharmaceutical, life science and chemical fields.

Metash UV-9000 is an advanced Double Beam spectrophotometer with the two detectors to measure sample and reference respectively and simultaneously for optimizing measurement accuracy. It is suitable for clinical lab applications, pharmaceutical and bio-chemical as well as routine applications such as quantitative analyses, kinetics, wavelength scanning, and DNA/Protein analysis.

WB2000C Stirrers
WB20-HT Stirrers / Hot Plates
V300 Oil Free Peristaltic Pumps
C410 Chemical Resistant Diaphragm Pump

Shinetek Instrument Research Institute
北京赛默实验仪器研究所

After being established as a well-respected and highly successful distributor all around China, Shinetek Instruments Co., Ltd. made the successful transition to producing high level laboratory equipment. Its two brands Wiggen's and Chemvak stand for high quality, long durability, and remarkable performance in China and around the world. A strong team of over 100 passionate members of the Shinetek family guarantees a smooth operation and is engaged in constant business innovations!

RIGOL

Rigol Technologies Inc produces high quality HPLC and UV-VIS spectrophotometer, our domestic & abroad endusers use our instruments for their analysis applications in food, chemistry and pharmacy.

We look for long-term partners in Southeast Asia. Welcome to contact us!

PRODUCT HIGHLIGHTS GERMANY

DS7800

M5000

DR6000

PT31

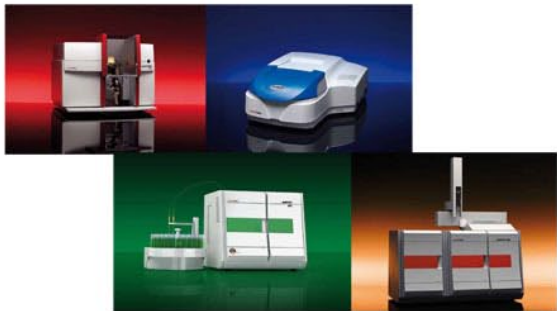

Automat mit-Flaph

P8000

ISO 9001 certified manufacturer and service provider of high-quality and innovative measuring instruments. In 2005, A.KRÜSS Optronik was awarded the TOP 100 seal of approval for its outstanding innovative achievements. Automatic refractometers and polarimeters ranging from professional bench-top models to hand-held instruments, with analysis software and 21 CFR Part 11 compliance, specialist technical support for various industries (food, beverage, pharmaceutical, chemical, petro, medical etc.), process refractometers, density meters, Peltier thermostats, microscopes, melting point meters, and customized products are the core areas of the company. Recently, the product line was broadened to include a special flame photometer which measures earth alkali elements simultaneously.

analytikjena

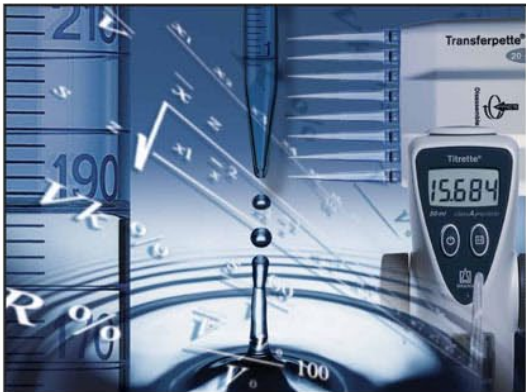

Analytik Jena has a long tradition in developing high quality and precision analytical systems which dates back to inventions made by Carl Zeiss. As a corporate group with worldwide operation, Analytik Jena possesses great competence in instrumental analysis (AAS, HR-CS AAS, AFS, UV VIS/NIR, sample preparation, TOX/TOC/TN, water determination, elemental analysis of C/N/S/Cl, determination of antioxidant capacity), bioanalytical instruments (extraction kits, molecular diagnostics, PCR, Liquid handling, robotics, reader) and laboratory information management system (LIMS).

Titertek-Berthold
(Berthold Detection Systems GmbH)

TITERTEK BERTHOLD

Titertek-Berthold of Germany makes superior products for life research and for ELISA assay automation: Tube and microplate luminometers, microvolume spectrometer, microplate washers, microplate coating equipment and ELISA miniworkstation.

New at LabIndonesia 2014
Patented Colibri microvolume spectrometer for DNA, RNA and more.

Transferpette®

BRAND

BRAND is a manufacturer of liquid handling instruments (dispensers, burettes, single-/multichannel and electronic pipettes, repetitive pipettes), volumetric glassware and plasticware, premium consumables for analysis and Life Science (PCR, storage, HTS/UHTS, UV-cuvettes, immunology, cell culture). Certified to DIN EN ISO 9001, 14001.

Labware

EMCLAB
instruments - Germany

EMCLAB Instruments GmbH is a German manufacturer of spectrophotometers and supplier for lab products. Beside our extended range of liquid handling like pipettes, bottle top dispenser, pipettes helper, etc., we offer magnetic stirrers, shakers and stirrers with ATEX-certification (ex-protected)

Lufft

Hand-held Measuring Device XA1000 "All-in-ONE"

The "All-rounder" in the measurement technology segment. An universal measuring device for professionals with the inclusion of exchangeable SDI Sensors. Highly precise measurements of temperature and relative humidity. Integrated air pressure sensor, online/offline data recording. Equipment test certificate, can be calibrated.

IKA®

The IKA group has over 800 employees at eight locations on four continents and is proud to serve customers such as BASF, Bayer or Procter&Gamble. We are the leader in the world market in most of the product groups and a leading example for development and growth. Or as our new slogan expresses it: "IKA-Designed to work perfectly"

INNOLABTEC
INNOVATIVE LAB-TECHNOLOGIE

Glass/Reaction ware

Inno-P-Station

Inno-P-Bloc

Flexline/Inno-4-P (XL)

SFC-Automation

The Innolabtec GmbH is developing, producing and distributing products for chemical and food industry for more than 15 years. In particular we develop innovative and customised products as synthesis equipment, temperature bathes and SFC automation.

Free up your time

Automated sample and assay technologies by QIAGEN

Automated solutions from sample to result:

- The widest choice of sample processing protocols
- Low-, medium-, and high-throughput automation
- Leading solutions for molecular testing
- Plug-and-play automated sample preparation
- Quantitative, real-time PCR detection
- Automated analysis of DNA fragments and RNA
- High-resolution sequence-based DNA detection and quantification

QIAGEN®

Sample & Assay Technologies

VITLAB 
Competence in Labware

VITLAB is one of the world's leading manufacturers of plastic laboratory products and liquid handling equipment, and can look back on a more than 100-year company history. Our products are marketed by a worldwide network of distributors and are used in laboratories in wide-ranging application areas, including the measurement of volume, sample drawing and storage.

PRODUCT HIGHLIGHTS MALAYSIA

eppendorf

Centrifuge 5430R
Refrigerated benchtop centrifuge

Mastercycler® nexus GSX1 & SX1e
Compact, energy saving PCR cyclers

EPENDORF ASIA PACIFIC

Trusted by scientists globally, Eppendorf offers excellent pipettes, centrifuges, PCR cyclers, heating-mixing devices and leachable-free consumables for tubes & plates.

Filtration boxes for Safety storage cabinets

Founded in 1968, erlab group developed the first Ductless Filtration Fume Hood in the world under the brand name captair. The headquarter with manufacturing facilities and R&D laboratories is located in France. Subsidiary companies are located in USA, China (second manufacturing facility), Spain and Malaysia. Branch-offices have been established in UK, Germany and Italy. Until today, more than 100,000 capital safety enclosures have been sold in more than 45 countries.

ORNET

Spectrometers for mining application

NIR/Raman System

FTNIR/FTIR

Atomic Absorption Spectrometer (AAS)

Laser Induced Breakdown Spectrometer (LA-LIBS-ICPMS)

Nano Microscope

Supercritical fluid extraction system

HPLC/GC

ORNET is incorporated in Malaysia dedicated in providing solutions for Scientific Lab Equipments and Instruments focusing on Spectroscopy, Chromatography, Fiber Optics, Photonics, Laser System, Imaging System, Microscopy, Supercritical Fluid Extraction System, Bio-Photonic and related technology. We are marketing wide range of products in above field and targeting customer from region of SOUTH EAST ASIA. Our major customers are from fields of Education (University), Research and Development, Manufacturing and Industries. We strongly believe that taking care of customer needs and satisfaction is the ultimate goal of our business.

HLC-8321GPC/HT
High Temperature GPC System

Tosoh Bioscience is a leading supplier of chromatographic columns (TSKgel®) and process separation media (TOYOPEARL®) for over 40 years. TSKgel® is designed for researchers seeking the highest level of performance by covering the total range of HPLC columns. TOYOPEARL® is suitable for preparative separation and scaled-up industrial purification processes. Moreover, Tosoh Bioscience has fully automated GPC system (HLC-8320GPC, EcoSEC) for polymer analysis. In 2014, a new High- Temperature GPC system (HLC-8321GPC/HT) is introduced.

Molecular Size Markers

Restriction Enzymes

GMbiolab Co., Ltd. was founded in 2001 in Taiwan and is pretty popular in domestic market. We provide a variety of molecular kits and reagents, including biological and biochemical materials, modified enzymes, and markers. All products are self-manufactured and distributed in our own brand- GeneMark. The company is always dedicated to its philosophy of "selling products with excellent quality, reasonable price, and perfect after-sales services".
